## Position under Food Regulation

We give herewith compliance with the Food Regulations of the product and countries listed below.

**We wish to point out that the final food-contact material or article, made from or containing this product as a component, needs to comply with overall migration testing limit requirements, when tested on the food contact surface. This aspect of the final materials and articles should be checked by the converter/user of the product, because it could depend on the type of material used or on different components, as well as on processing conditions.**

You will be informed if any changes in this declaration occur due to legislative amendment, revision and/or formula modification.
